

SENTRILLION®

Your leading physical security management solutions provider

WE'VE GOT IT COVERED.

Sentrillion Corporation is a Small Business that provides integrated technology solutions for law enforcement, national security, critical infrastructure, and vital network communications. We have designed, installed, and maintained hundreds of physical security and video and audio surveillance management systems for government and commercial customers throughout the United States. Our work includes an enterprise security solution for the Department of Homeland Security at over 340 locations with a greater than 98 percent operational availability rate (Ao). We recognize the mission-critical nature of these systems and their impact on the daily routines, safety, and security of agents, officers, personnel, and the general public.

Our Capabilities

Sentrillion has over two decades of experience in designing, developing, deploying, and maintaining security and surveillance systems.

Capabilities We Provide

We use innovative technologies in the following areas, among others:

Project & Program Management

Identify & Access Management/ IoT Cyber

Deployment, Field Support & Systems O&M

Physical Security, LPR, RDE, NII, CCTV

ILMS/IM, Maintenance Management

Biometric Enablement & Enrollment

Law Enforcement & National Security

Video & Audio Surveillance Management Solutions

24x7x365 Help Desk, Remote Support

Integration Lab

Our Lab, located in Sierra Vista, AZ, offers customers secured warehousing, integrated logistics management, and enables Sentrillion to:

1 Design, integrate and bench test each system in our lab using live video feeds from various systems, cameras and associated sensors by our cleared engineering staff.

2 Scan the system for cyber vulnerabilities using the most recent publicly available Cyber Threat Assessments and any other customer-requested assessments.

3 Make the necessary changes or collaborate with equipment manufacturers to develop a patch or recommend alternative risk mitigation steps.

WE'VE GOT IT
COVERED

340+ locations
Sentrillion
currently
supports at operational
availability in excess of 98%.

Our Experience

Sentrillion helps U.S. Federal government agencies focus on their mission by securing their facilities and critical assets. Our experience includes the following select programs:

U.S. Customs & Border Protection

Sentrillion provides direct maintenance and support to the Customs and Border Protection (CBP) Border Security Deployment Program (BSDP) Centralized Area Video Surveillance System (CAVSS) and other mission-critical programs.

Additional Services Include:

- Video & Audio Management Systems Integration, Deployment, O&M
- Systems/ Device Security
- CCTV/ LPR/ RDE/ NII Operations & Maintenance
- Digital Forensics
- Predictive Analytics

Department of Defense

Sentrillion provides design concepts, technology recommendations, and installation of modernized Security Camera Systems for multiple locations for the U.S. Air Force, U.S. Navy, U.S. Army, and Space Force facilities that include medical buildings, pharmacy spaces, dormitories, airfields, and guard gates.

Additional Services Include:

- Solution Design & Installation
- Security Systems O&M
- Wrong Way Detection Design & Installation
- Waterway Surveillance
- Digital Forensics

U.S. Department of Health & Human Services

Sentrillion supports the Health & Human Services (HHS) Office of Refugee Resettlement with CCTV, IT setup, and O&M support of Soft-Sided Facilities in multiple locations in Texas and California.

Additional Services Include:

- Wired and wireless data network infrastructure
- CCTV, Cable Television/ Satellite (CATV)
- VOIP
- 24x7x365 HelpDesk
- Window and door alarms
- Badging system & Access Control

Sentrillion has engineering and deployment teams around the country available to install, refresh, and/or modernize systems and security technology, including fiber optic or CAT 6 cable installation, testing, and certification. Additionally, Sentrillion maintains a sizable maintenance staff geographically dispersed throughout the United States, ensuring rapid customer response and a 24/7/365 Help Desk. Our Help Desk can integrate with the help desk or ticketing systems of our customers, or provide 100% of the support required, including remote support. Our maintenance staff are knowledgeable and experienced and maintain the right certifications and receive industry-leading training. Each team member has extensive experience performing preventative maintenance, troubleshooting, repairing, and replacing security systems in Federal Buildings and on Federal Grounds. The vast majority hold various levels of government clearance, ranging from Public Trust to TS-SCI. We are technology and vendor agnostic with multiple value-added reseller (VAR) relationships with leading manufacturers.

Workforce Skills & Certifications

The Sentrillion Program Management Office (PMO), based in Reston, VA, directly supports Sentrillion's customers and each project team. The PMO ensures that project management processes and best practices based on ISO 9001:2015 and Project Management Book of Knowledge (PMBOK) guidelines are followed; it oversees cost estimation; establishes, tracks and ensures adherence to budgets, including Earned Value Management (EVM); creates and maintains project schedules; and facilitates the coordination of resources, methodologies, tools, and techniques across Sentrillion. Our PMO is the primary point of contact for Sentrillion teams and our customers. Our workforce has decades of experience in areas that span our capabilities, including:

- ✓ Project & Program Managers
- ✓ Engineers & Technicians
- ✓ Solution & CAD Designers
- ✓ Physical Security Professionals
- ✓ Cyber Security Professionals
- ✓ Inventory Management Professionals
